

# Help them is like helping yourself

Hello! Ambit Power Team Leaders:

I have sent the following message to your downline, it is very important to put an Ambit bonus check into their hands ASAP so that they can see and feel this fast growing energy market with the faster growing private company in America.

If you want to get more than regular pay then help them to enroll 5 household customers into their website within 28 days and ensure that their customers are on the PENDING status. If you just want regular jump start bonus pay of \$100 then encourage them to enroll 3 qualify household customers. Your new consultant is like your new born child, if you don't teach them how to live then they will die, they either make money or lose money. "Words can motivate people but money can move people."
