

(Insert Prospects Name Here),

Below is the email I send to potential consultants. I like them to watch the videos on the website and see a system that explains the business, so they don't have to! This allows us to spend our time, answering their questions and getting them started!! Attached are two great articles from the Dallas Business Journal and Inc. 500 about Ambit Energy's rapid success. Also attached is my friend Justin & Sherri Title's electricity bill, they only paid \$9.84! This is a great incentive for customers.

(Insert Your Name Here),

Ambit is positioned to capitalize on the deregulation of electricity and natural gas. This will be the largest redistribution of wealth that we will see in our lifetime. You can build your business part-time and continue doing what you are doing!

Ambit pays a residual (month after month) income for what you start! It can be as big as you like, once created you will continue to get paid monthly for what you started.

Go to www.InsertYourPersonalWebHandleHere.energy526.com and follow these steps:

1. Select Language
2. Watch all the videos, take notes and then give me a call and I will answer your questions.
